INTRODUCTION

THE footnote to the introduction to volume three of *Cavaliers and Pioneers: Abstracts of Virginia Land Patents and Grants* described how Nell Marion Nugent's first volume, published in 1934, superseded her earlier series of abstracts published in six numbers by the Dietz Press, of Richmond, between 1929 and 1931. The note also stated that "all information in the serial publication is found in vol. 1".¹ Shortly after volume three had been published, the error of that statement was brought to our attention. While examining copies of Mrs. Nugent's serial publication, we had failed to notice fourteen pages of abstracts of Northern Neck Grants No. 1, 1690-1692.² The abstracts are photographically reproduced in this *Supplement*. The pages have been renumbered, and Susan Bracey Sheppard prepared the index.

Researchers may also consult, in the archives reading room of the Virginia State Library, an alphabetically arranged card index of grants of Northern Neck land made between 1690 and 1874. Each of the 16,407 cards carries the name of the grantee, the date of the grant, information about the location and acreage of the property, and references to the manuscript record from which the information is taken. A more detailed description of the Northern Neck land records held by the Virginia State Library is in Daphne S. Gentry, comp., *Virginia Land Office Inventory* (Richmond, [1973]), entries 9-24.

1. Nell Marion Nugent, *Cavaliers and Pioneers: Abstracts of Virginia Land Patents and Grants*, vol. 3 [1695-1732] (Richmond, 1979), vii.
2. The abstracts and their indexes were printed in three installments (Nell Marion Nugent, comp., *Cavaliers and Pioneers: A Calendar of Virginia Land Grants, 1623-1800* [Richmond, 1929-1931], 1:38-43 and 64-66, 87-90 and 103-104, and 126-129 and 143-144). The manuscript volume now described as Northern Neck Grants No. 1, 1690-1692, had been labeled book A in an earlier, alphabetical arrangement of the records.

The following is an abstract of one-half of
